

TAFT HELPS
DEDICATIONOf Pilgrim's Memorial at
Provincetown, Mass.

30,000 PEOPLE PRESENT

Monument 252 Feet High Commemorates
the Landing of the Pilgrims, and
Cost \$90,000—Ancient Town
Gaily Decorated.

Provincetown, Mass., Aug. 5.—President Taft, Mrs. Taft, Senator Henry Cabot Lodge and Senator Wetmore of Rhode Island arrived here shortly before noon to-day on the Mayflower to participate in the dedication of the Pilgrim's memorial. They were greeted by a tremendous salute by the Atlantic squadron, under Admiral Schroeder. The admiral and the fleet captains then called on President Taft, who returned the call.

The party then landed and were escorted through two thousand sailors to Town Hill, where they participated in the dedication exercises. Afterwards they attended the banquet. The town is gaily decorated, and fully 30,000 people took part in the ceremony. The speakers included President Taft, Governor Eliot of Harvard, Mr. Van Dusen, charge d'affaires of the Netherlands delegation, Congressman McCreary of Minnesota and J. Henry Sears, president of the Pilgrim Memorial association.

The memorial is of granite and is 252 feet high. Its cost was about \$90,000. The inscription on the bronze over the front entrance reads as follows:—

"On November 21, 1620, the Mayflower, carrying 102 passengers, men, women and children, cast anchor in this harbor, 67 days from Plymouth, England.

"On the same day the 41 adult males in the company had solemnly covenanted and combined themselves together into a civil body politic."

"This body politic established and maintained on the bleak and barren edge of a vast wilderness a state without a king or a noble, a church without a bishop or a priest, a democratic community, the members of which were straightly tied to all care of each other's good and of the whole by everyone."

"With long-suffering devotion and sober resolutions they illustrated for the first time in history the principles of civil and religious liberty and the practice of a genuine democracy."

"Therefore the remembrance of them shall be perpetual in the vast republic that has inherited their ideals."

Washington, D. C., Aug. 5.—Father Torndorf of Georgetown university believes that a tidal wave has occurred in the Atlantic ocean, 2,000 miles south-east, as the result of a terrific earthquake of last night. The seismograph needle moved as far vertically as horizontally, Father Torndorf reports.

OVER MAYOR'S VETO

Burlington Aldermen Passed Wharf
Resolution Last Night.

Burlington, Aug. 5.—An adjourned meeting of the board of aldermen was held last evening, when Mayor Burke returned with his veto the resolution authorizing the city attorney to proceed with the sequestration proceedings at the foot of College street, south of the Lake Champlain yacht club dock. The resolution was adopted, however, the mayor's veto notwithstanding. The only member voting no was Alderman McCaffrey. Aldermen Edwards and Gosselin were not present.

Mayor Burke stated to the board that in his judgment, the sequestration proceedings would be unsuccessful, for the reason that the land in question was needed by the Central Vermont Railway company for improvements and that it would crowd the Shepard and Moore lumber company. He also thought that it would be hard for the city to prove the necessity for that particular site. He advised that the city begin sequestration proceedings against the Central Vermont railway for the yacht club dock, which the citizens at a recent meeting refused to purchase for \$27,500.

Alderman Clarke thought that the matter of procuring a dock need not be hurried, for the reason that the city could now procure all the lake front needed and could then build a dock at any time. The yacht club dock, he said, was so old that it would be worthless for commercial purposes.

PYTHIAN OFFICERS CHOSEN.

George M. Hanson of Maine Elected Supreme Chancellor.

Milwaukee, Wis., Aug. 5.—Two events yesterday occupied the attention of the Knights of Pythias grand encampment: the election of officers and the competitive drill.

Vice-Chancellor George M. Hanson of Maine was elected to the supreme chancellorship. Thomas J. Carling of Maine, Ga., was elected supreme vice-chancellor over R. S. Young of Ohio, and Benjamin I. Sallinger of Iowa.

Other officers elected were: Supreme keeper of records and seal, Fred E. Whetson, Minneapolis.

Supreme prelate, Rev. Joseph H. Sparring, Shreveport, La.

Supreme master-at-arms, Edward Horton, St. Thomas, Ontario.

Supreme inner guard, Harry A. Drachman, Arizona.

Supreme outer guard, H. M. Wadsworth, Philadelphia.

TO DEFENCE
OF SHERMANSenator Hughes Says He Never
Heard Him Mentioned

IN THE INDIAN LAND CASE

And the Colorado Senator Was the Man
Who Moved the Resolution Call-
ing for Investigation of Sena-
tor Gore's Charges.

Denver, Col., Aug. 5.—United States Senator Hughes, who moved in the Senate the appointment of a committee to investigate Senator Gore's charges of attempted bribery in connection with the Indian lands claims, declared to-day that he never attached importance to the charges and he never heard Vice President Sherman's name mentioned. He said that Senator Gore told him he was offered \$25,000 and later \$50,000, if he could block the bill, which was aimed at the McMurray contracts, in the Senate.

SHERMAN'S STATEMENT.

Says Story as It Comes to Him Is
Wholly Unfounded.

Big Moose, N. Y., Aug. 5.—A special message from Vice President J. S. Sherman to the United Press to-day says: "The story that comes to me about the charges made by Senator Gore at Muskogee is absolutely without the slightest shadow of foundation."

Vice President Sherman came from his home in Utica last night, intending to remain until Monday.

The Cause of Gore Charges.

Washington, D. C., Aug. 5.—The famous McMurray contracts, responsible for Senator Gore's sensational charges of attempted bribery, involve the proposed sale of 450,000 acres of rich mineral lands belonging to the Choctaws and Chickasaws. J. F. McMurray, an attorney of McAllister, Oklahoma, and his associates had made contracts with numerous individuals, Indians, by which the attorneys were to receive ten per cent of the land sales; but Senator Gore opposed the McMurray contracts and introduced a measure in the Senate, providing that all contracts with Indians must be confirmed by Congress.

This was the measure which caused the trouble. The possible attorneys' fees under the McMurray contracts are estimated at from \$3,000,000 to \$10,000,000. The geological survey says the lands are worth hundreds of millions of dollars. Senator Gore says the bribe was offered him to induce him to withdraw the measure before the Senate.

(Vice President Sherman's alleged connection is told about in another column.)

McGuire Says He Was Never Interested
In Indian Contracts.

Guthrie, Okla., Aug. 5.—Representative Birt S. McGuire of the first Oklahoma district, in a statement here yesterday, denied emphatically that he had now, or ever had, any interest in Indian contracts with McMurray or any one else. He said he would go to Muskogee at once and appear before the congressional committee now in session there.

"I don't know what was said to Senator Gore," stated Mr. McGuire, "or whether anything was said to him by any person, but this much is true: 'No man, who is honest and responsible, will say that I have now, or have ever had, any interest in any Indian contracts with McMurray or anybody else.'"

"A man who would have a statement in the United States Senate, on what some person may have told him in a matter like that is nothing more or less than a common slanderer."

Brandon, Aug. 5.—The milk producers in this town and vicinity have organized for the purpose of raising more for their milk. Previous to July 1 they were receiving 23 cents a can and during the month of July they received 25 cents. They now have made a demand for 30 cents a can, which has not been granted, and most of the producers who have been delivering their milk to the Boston Dairy company, have stopped doing so. For the present they are making butter. From 80 to 150 cans of milk has been shipped daily from this station.

TERRIFIC BOMBARDMENT.

Through Addison County During Electric
Storm.

Middlebury, Aug. 5.—The electrical storm of Wednesday did great damage through Addison county, many buildings being struck by lightning and burned. At 8 o'clock in the morning two barns in the east part of the town about 2½ miles from this village were struck by lightning at almost the same moment. The barns belong to Elsworth Cornwall and Mrs. Noble Dewey and both were burned to the ground. In the Dewey barn 20 tons of hay were destroyed as well as a buggy, harness and adjoining hen house. Only one hen was killed but the rest were badly scorched. There were about 50 tons of hay in the Cornwall barn and this was a total loss. This was a new barn, but recently completed and was 30 by 30 feet in dimensions. There was a small insurance on the Dewey barn, but it is said that the Cornwall barn had not been insured.

The barn belonging to John Lucha, who lives on the East Middlebury road, was also struck, several boards torn off and out all was split so as to leave a gap 2 inches wide. Although the barn was full of hay it did not catch fire.

A little before noon the hen house of Dr. Eddy on Weybridge street was struck by lightning but the fire was soon put out by Dr. Eddy and neighbors.

Another barn is reported to have been destroyed in Cornwall and smoke was seen from two or three other fires to the southwest during the day. An apple tree on Weybridge street was also shattered.

YOUNG MAN KILLED
BOARDING TRAINCharles Webber, 31, Victim at Putney
Yesterday Afternoon, His Body
Being Cut In Two by
Train.

Brattleboro, Aug. 5.—Charles Webber, aged about 31 years, was instantly killed at Putney by the White Mountain southbound express yesterday afternoon while attempting to board the train in mid-air. He arrived at the station after the train had started and instead of attempting to board it by running alongside the train, grasped one of the guard rails and hung to it for several moments. Letting go of the rails he fell beneath the wheels and was cut in two just below the shoulders. He formerly lived in Westmoreland, N. H., just across the river from Putney, and operated the Putney ferry across the Connecticut river. He had been married.

Two Offers for Milk.

Addison County Farmers Are After
Higher Prices.

Middlebury, Aug. 5.—The milk controversy, which has been on in this part of the county since Monday last, showed something of a change yesterday morning, when a number of the farmers on Weybridge, who had been furnishing milk to the Boston Dairy company, delivered their supply to the New York company. Wire news here received here Wednesday night from the president of the Boston company in which he agreed to pay the same amount and under the same conditions as the New York company had offered, but his decision was received too late, inasmuch as representatives of the New York company had been in the town during the afternoon and had contracted for the milk of several producers. The Boston company has representatives in the county who are in consultation with the striking farmers in regard to the matter.

For the present they are making butter. From 80 to 150 cans of milk has been shipped daily from this station.

Brandon, Aug. 5.—The milk producers in this town and vicinity have organized for the purpose of raising more for their milk. Previous to July 1 they were receiving 23 cents a can and during the month of July they received 25 cents. They now have made a demand for 30 cents a can, which has not been granted, and most of the producers who have been delivering their milk to the Boston Dairy company, have stopped doing so. For the present they are making butter. From 80 to 150 cans of milk has been shipped daily from this station.
